Kaden A. Kinchen

661 Techwood Dr NW, Atlanta Georgia, 30332 | 770-756-5920 |kkinchen7@gatech.edu | Citizen |

Objective

Computer Engineering student looking for a summer internship in software development or embedded systems. Brings programming experience with Python, hands on experience teaching elementary students coding through Scratch, and experience working in fast paced high volume order fulfillment. Eager to apply technical skills, problem solving ability, and programming experience while contributing to a professional team and gaining hands-on engineering experience in a professional environment.

Education

Georgia Institute of Technology | Atlanta, GA *August 2026 – Present*
Bachelor of Science in Computer Engineering, Expected Graduation, May 2030

Locust Grove Highschool | Locust Grove, GA *August 2022 – May 2026*
GPA 4.61

Skills

Programming: Python (novice)
Platforms: Word, Excel, Anthropic AI (Claude), PowerPoint
Hardware: PC maintenance, basic troubleshooting skills, Basic computer hardware knowledge
Software: Basic Software Design Skills
Professional Organizations: National Honors Society
Communication: Verbal and written, good with groups and teamwork
Languages: English (Fluent) Spanish (Beginner/intermediate)

Experience

Unity Grove Elementary School | Locust Grove, GA *School Years of 2025 and 2026*
Afterschool Instructor

- Managed, looked after, and taught 50+ students aged 7-10 that resulted in better behaviors and increased understanding of reading and math concepts for their respective grades.
- Taught small groups of roughly 15 kids each the basics of coding and creating their own projects through the platform Scratch.

U.S Kids Golf | Peachtree Corners, GA *Summers 2024-2026*
Warehouse Employee/Packer/Shipper/Order Picker

- Shipped/Packed/Picked over 2000 individual orders and over 10,000 contributing to the fulfillment of tens of thousands of dollars in sales.

Relevant Coursework

Intro to computing: Learning how to use Python to program code and create/debug different written codes.
Differential Calculus: Learning the math required to make different calculations that will be needed in designing new systems and programs and editing/updating existing ones.

Leadership

National Honors Society |Member *August 2024 - May 2026*

- Assisted in various service hour projects which helped raise money through the school for several different charities.
- Helped organize and create a variety of service projects to help the school and the community

Student Government Association |Social Committee Representative

- Created and organized numerous school wide events like the Homecoming Dance, football game themes, and hallway decorations for various other events.
